

THE RAGUN

by Therabody

Eirberg

THE FUTURE OF TECH WELLNESS IS HERE.

Feel the difference™ with
Theragun's 4th generation devices.

Theragun Percussive Therapy is massage reinvented™, created to increase blood flow and decrease tension deep within the muscle. Our 4th generation of Smart Percussive Therapy™ devices leverage the power of cutting-edge technology to integrate percussive therapy into your daily life in a more meaningful and personal way. From personalized treatment recommendations based on daily activity, to controlling your device in-app

via Bluetooth® connection, our 4th generation was truly built with you in mind. Our 4th generation devices are now smart, personalized, and quieter than ever. Our brand new proprietary brushless motor uses QuietForce Technology™ to deliver the unrivaled and renowned Theragun power and speed, so you no longer have to choose between treatment quality and sound. No brushless motor available could provide the power to

maintain our industry-leading treatment depth and strength while operating as quietly as we wanted, so we invented our own. Our 4th generation devices treat your muscles 60% deeper than consumer-grade vibration massagers while blending into the background thanks to the dramatic reduction in sound.

To complement our 4th generation, we've also introduced the Theragun mini™, our most compact and portable device yet, our Bluetooth connected vibrating foam roller, named Wave Roller™, and our multi-purpose Yoga Mat.

Feel the difference with the world's most advanced percussive therapy devices, trusted by 250 sports teams worldwide and countless physical therapists, trainers, chiropractors, celebrities, athletes, and everyday people in over 50 countries.

THERAGUN PRO™

Powerfully Quiet.

*Powerful, quiet, and commercial-grade.
The professional percussive therapy device in a league of its own.*

Top-of-the-line, commercial-grade deep muscle treatment meets personalized, guided app experiences that help to reduce muscle soreness, improve mobility, and increase relaxation. With a rotating arm, continuous battery life, and an industry-leading 2-year warranty, the Theragun PRO is the advanced, professional-grade recovery tool of choice for professionals and everyday people worldwide.

FEATURES

- Proprietary brushless commercial-grade motor with QuietForce Technology
- Smart Percussive Therapy with Bluetooth connectivity
- 3 built-in app-guided preset routines

- Our PRO, Elite, and Prime treat deep within the muscle.

THERAGUN TRIANGLE

- Our patented multi-grip design engineered with 4 ergonomic grips.

ATTACHMENTS

- Our non-porous closed-cell foam attachments are designed to treat specific areas of your body comfortably.

QUALITY

- Built using proprietary components for durability.

THE APP THAT GETS YOU.

We're committed to continuous innovation. Our priority is to always deliver the most customized, advanced, and personalized programs and user experience. It was important to us that our next line of devices be connected to your life in a more meaningful way, which is why our Theragun PRO, Theragun Elite, and Theragun Prime devices are Bluetooth enabled for two-way communication with the Therabody app. Each guided wellness routine we offer, whether focused on activities, body parts, or ailments, was personally created by Dr. Jason, and while he can only be in one place at one time, the app provides each person that uses it with a "private

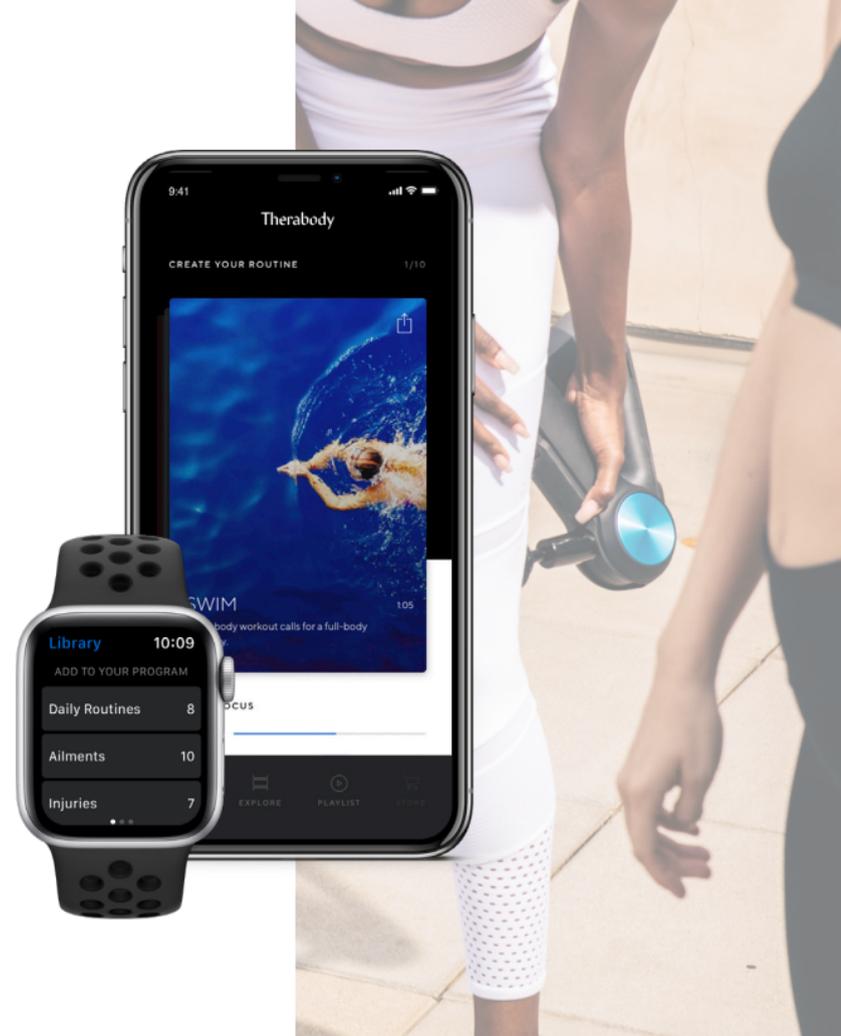

appointment" with him when it's most convenient for you.

We want you to get the most out of your device, so we made percussive therapy smarter. The Therabody app learns from you and delivers guided wellness routines uniquely suited to your behaviors and preferences. The Therabody app also proactively suggests guided wellness routines that help reduce discomfort, stress, and tension. Our goal is to show you all the ways Smart Percussive Therapy can benefit you in your everyday life and become your go-to resource for whole-body wellness.

Through our integration with Apple Health, Google Fit, and Samsung Health, we'll suggest guided wellness

routines to help you discover new and surprising ways to care for your body. The personalization doesn't end with the app. Our Theragun PRO and Elite devices each can store up to three presets locally. Each preset is a unique combination of speed, time, and force depending on the guided wellness routine it stems from. That means that each person's device is specific to them and can be tailored to their particular needs.

The health and activity data collected on your Therabody app stays there, period. At Therabody, we understand your health and activity data is yours and yours alone. We don't collect, sell, or share any of your data, ever.
