

Withings Thermo
Smart Temporal Thermometer

Our vision

Withings invents products that have a positive impact on health.

We aim for everyone to benefit from the connected health revolution.

Smart Choices for Healthy Living

Leading the connected health revolution

*« The company Withings however, has always been slightly different – with more of a consumer healthcare focus...
Through the years the company has emerged as a standout in terms of products that extend the reach of typical health data capture with elegance and simplicity.»*

Forbes

*«Welcoming, un-clinical design.
Online utility for tracking results. Shockingly easy to use.»*

WIRED

Reinventing family care routine.

16 sensors. One touch. Wi-Fi.

Thermometer reinvented.

Fitness, Sport & Biotech category
Tech for a better world category

Temporal artery: the new gold standard for temperature measurement

	Oral/Underarm	Rectal	Auricular	Temporal
Measurement accuracy	-	+	+	+
Positioning accuracy	+	+	-	+
Comfort	-	-	+	+
Sanitary	-	-	+	+

The **Temporal artery** is one of the **most accessible & reliable images** of body temperature. The heat emitted by the artery creates an **IR signal** that is **detected** by the device's sensor.

HotSpot Sensor™ Technology

A revolutionary new sensor array for improved reliability

The world's first thermometer with:

16 independent infrared sensors takes

4000 measurements in 2 sec

to find the hottest point.

Vibration notification

1 click. 2 seconds.
That's it.

- 1** Gently **press** the device directly on temple
- 2** **Push** the button. One click and that's it!

Get a result in **less than 2 seconds.**

Instant feedback. Personalized advice.
Right in the Withings Thermo app.

1st medical Wi-Fi thermometer

Syncs to smartphone via Wi-Fi or Bluetooth

Know what to do

- Colored LED fever indicator
- Thermo app gives temperature-based advice

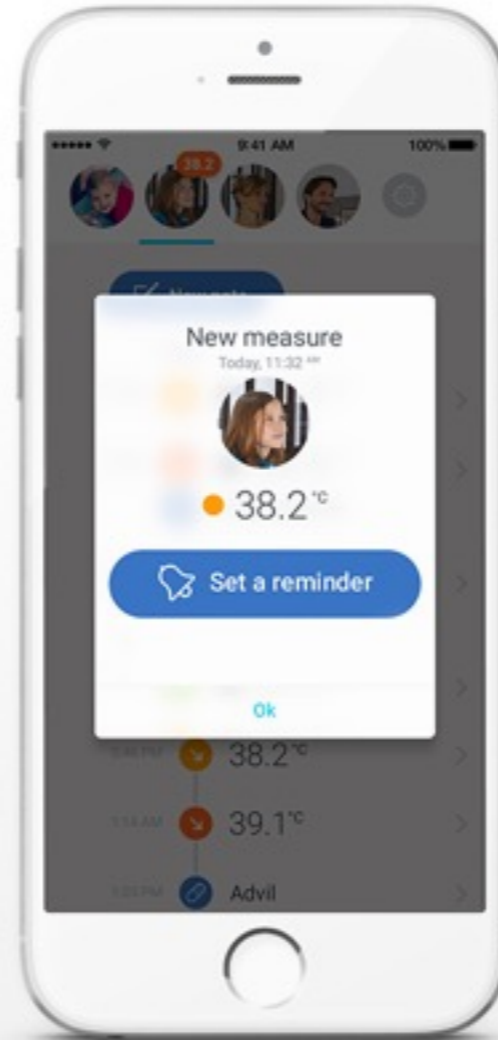

Temperature Monitoring **for your family**

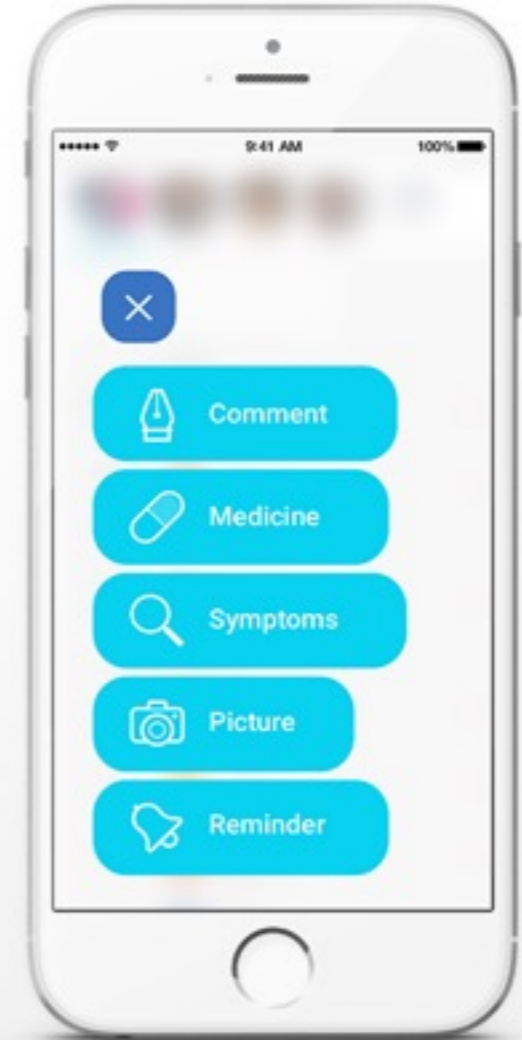

Monitor fever episodes

**See trends
in calendar view**

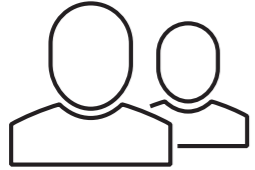

**Set measurement
reminders**

**Enter notes
& comments**

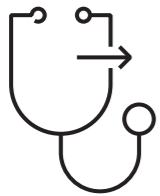

Your family health book in one app

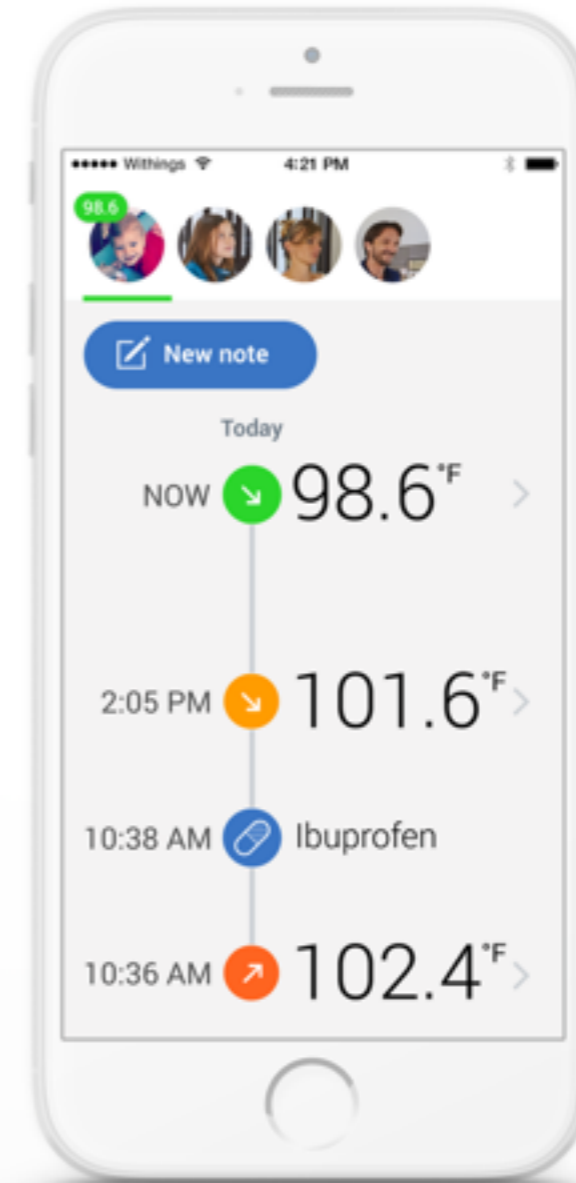

Manage multiple users in the app

Easily save notes on your child's condition

Easily send to your doctor via email

Availability & Price

Available: **Q1 2016** MSRP. **\$99.95**

Product Technical Specifications

Technology

Array of 16 infrared temperature sensors
2000 temperature measurements per second
100 LED temperature display
Temperature display in °C / °F

Connectivity

Wifi 2.4 GHz 802.11 b/g/n
Bluetooth Smart Ready
MFi compatibility
Apple Wireless Accessory
Configuration support (WAC)

Software requirements

iOS 8 or higher

Autonomy

2 AAA Batteries (2-3 year lifetime)

Size & Composition

L = 4.57 inches (116 mm)
x Diameter = 1.31 inches (33.2 mm)
Weight = 0.165 lbs (75g, batteries included)
Made of ABS and thermoplastic elastomer
