

Foscam G4P 4MP Super HD WiFi Outdoor Security Camera

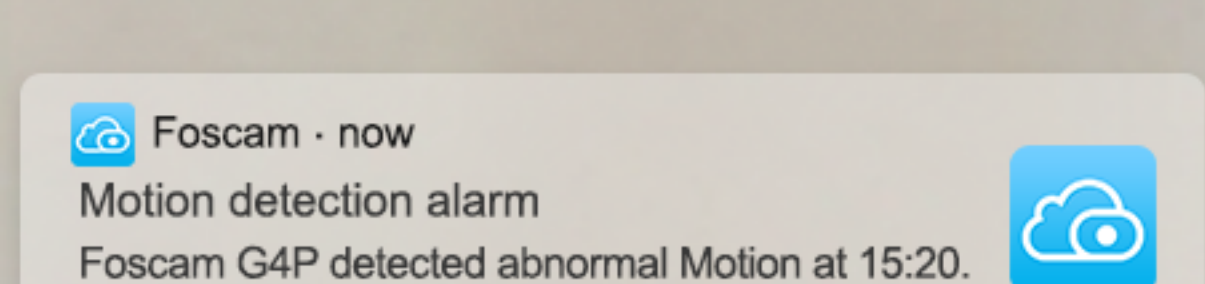

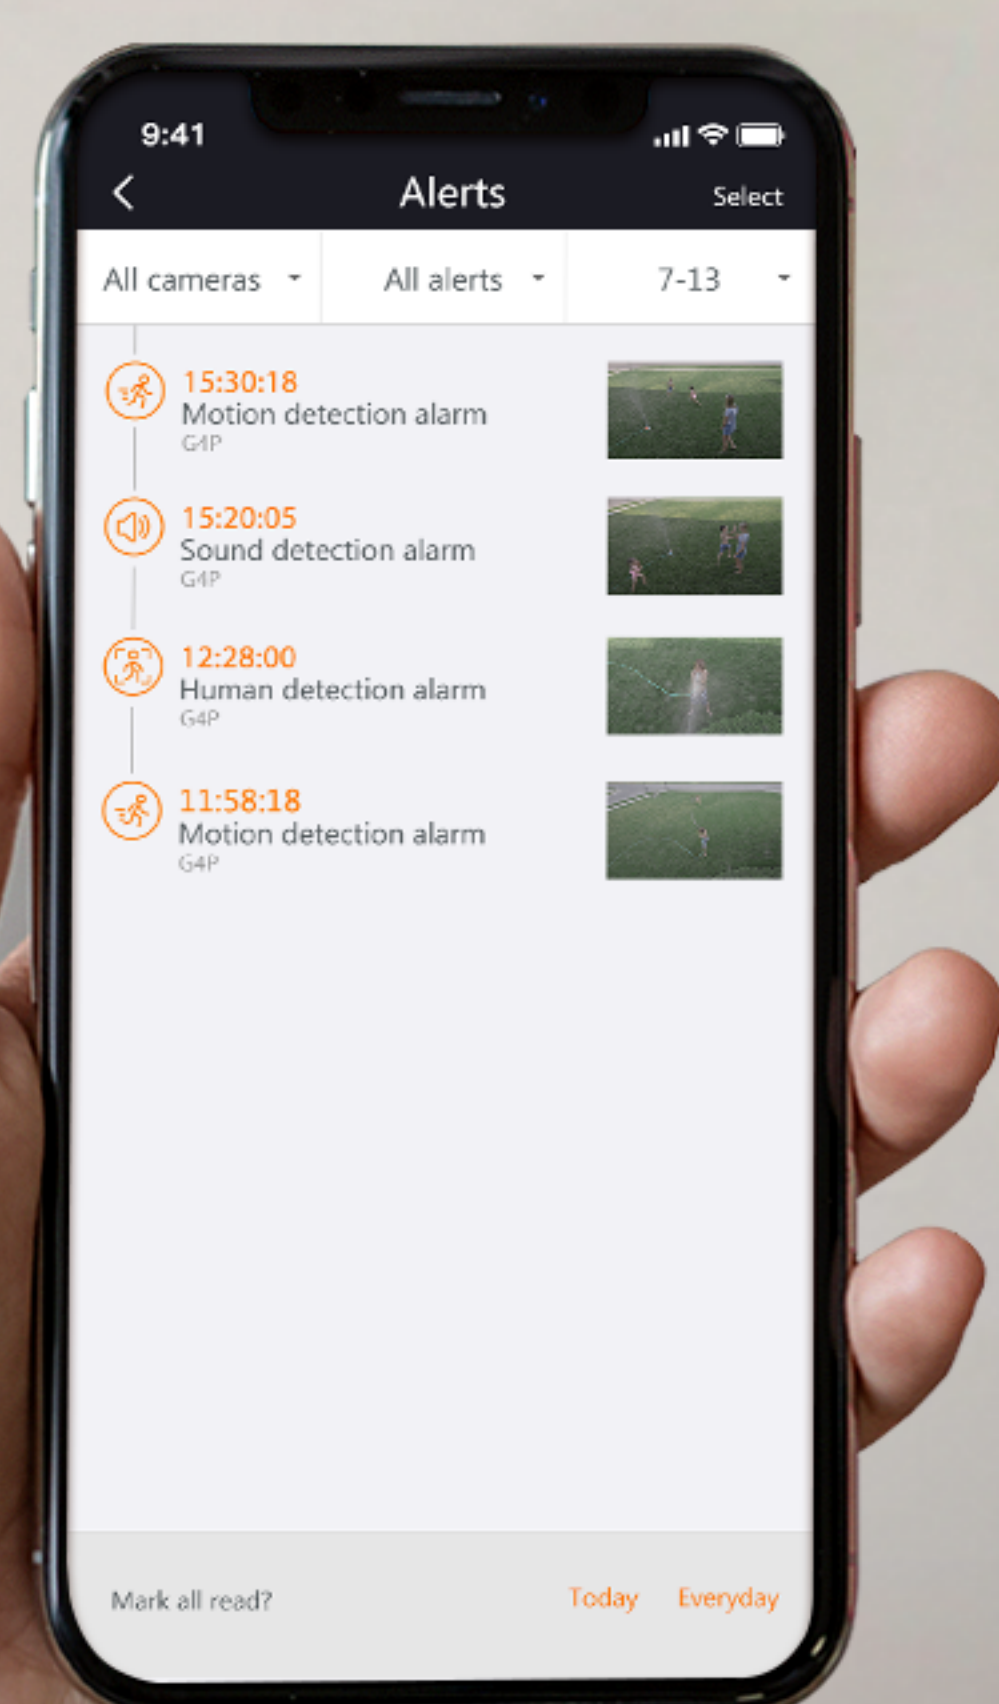

4MP Super HD Video Quality

Foscam G4P is the latest Super HD outdoor camera of Foscam smart home system. It features 4MP super high definition recording with 112° viewing angle. WDR technology helps correct the glare or dark spots of the image.

Enhanced Night Vision

Built-in 30 infrared LEDs automatically turns on in low light conditions, allowing you to see clearly in the dark up to 66 feet. It gives your house a full protection no matter day or night.

Motion Detection and Real-time Activity Alerts

Motion & sound detection with real-time alert notifications sent to you, intelligent human recognition and alarm push when there is human motion.

Waterproof, High Temperature and Cold Resistant

IP66 weatherproof ensures perfect security monitoring indoors and outdoors, with a supported temperature range from -20°C to 60°C.

Free Cloud Service SIMPLE SMART SECURE

8-hour free cloud service is provided, which means you can save all alert captures and video clips of the last 8 hours to the Foscam Cloud without capacity limitation.
